The **Talview** Story

Remote • Automate • Reuse

Launched in 2017, Talview is the fastest way to hire for enterprise employers across the globe. Our Instahiring Platform empowers organizations by enabling “anytime, anywhere” remote processes, automating routine tasks, and reusing data across the hiring process. Our AI-enabled video interviewing, cognitive remote proctoring, and advanced assessment solutions leverage best-in-class NLP, Machine Learning, Computer Vision and Video Analytics capabilities. Talview caters to the “mobile-first” user who expects a seamless digital communication experience with exceptional speed and convenience. We integrate seamlessly into most ATSs and LMSs to help HR leaders automate repetitive tasks so they can focus on selecting the best candidates.
