

Indeed Recruiter Extension

Quickly transfer candidates from Indeed to your CRM

Indeed Recruiter Extension is a free browser extension that helps recruiters transfer candidate and resume data from Indeed to their CRM with just a few clicks. This integration eliminates the need for manual transfer of data.

The Indeed Browser Extension was developed to better connect Indeed and other talent platforms recruiters use. The browser extension can easily export candidate and resume information from Indeed. This valuable data can then be imported into CRM platforms, saving recruiters from manual data entry and enhancing performance reporting.

Some of the key features of Indeed Recruiter Extension:

- ✓ Export candidate and resume data from Indeed
- ✓ Send data to your CRM with a few clicks
- ✓ Export candidate information in .csv format
- ✓ Enable improved source tracking in your CRM

How Indeed Recruiter Extension can help recruiters:

- Access 225 M candidates using your Resume subscription while easily moving candidates to the next step in your CRM
- Extract applicants to jobs hosted on Indeed with just a few clicks
- Leverage the Indeed Hiring Platform by seamlessly extracting candidates after a hiring event
- This extension improves efficiency across the product suite of Indeed, the world's #1 Job search site¹, with 250M Global Monthly unique visitors²
- 27.5M candidates are ready to work on Indeed and can be transferred to your CRM
- No technical customization is required to start using IRX
- No additional agreements are required to enable IRX

² Google Analytics, Unique Visitors, February 2020

Client Testimonial

"The tool **saves 2 minutes per candidate** versus manual transfers. At our scale this is DAYS AND DAYS of saved time! In addition, we have stronger data integrity and more complete candidate profiles since we are transferring the full resume."
