A New Standard in Hiring

Are You Interested In...

- Helping candidates find their best fit to excel within your organization?
- Comparing candidates to top-performing employees?
- Better understand employees for internal mobility and culture?
- Creating a seamless inline experience for candidates?

Traitify integrates into 80% of Applicant Tracking Systems (ATS) and is available as an API, or a self-enclosed SaaS product. Our solution encourages a simple and affordable way to measure every single candidate and team member.

Science You Can Trust

Traitify's patented method of measuring personality is backed by The Five-Factor Model, and supported by over five decades of research that tap into its predictive power.
